WALK ON RED FOR PUPPY WEEK

Puppy Week is a long standing tradition at St. Anne-Pacelli. This week focuses on fostering relationships. As a freshman you will be paired with a senior to participate in themed days, lunchtime competitions, and traditions rooted in Viking spirit. Other Viking traditions include the Homecoming bonfire & pep rally, Catholic Schools Week celebrations, senior walk, and class retreats.

CIAO! TAKE A TOUR OF ITALY

Students have the opportunity to participate in several different study abroad trips each year for foreign language and culture immersion. Do you dream of visiting Italy or France? How about experiencing winter carnival or a tropical rainforest? All are past destinations for St. Anne-Pacelli study abroad students. Where will you go?

YOU MADE THE TEAM!

85% of St. Anne-Pacelli students participate in at least one of the 15 sports offered. Seventeen members of our Class of 2022 are committed to play sports at the collegiate level! Go Vikings!

SPEND THE DAY WITH DUCKS

Pacelli has one of the few active high school Ducks Unlimited chapters in the state of Georgia. The organization focuses on fostering environmental conservation and a love of outdoor activities. If that's not for you, choose from one of the other 35+ clubs and activities available for high school students. Better yet, start a new club based on what you enjoy!

TAKE A BREAK!

Lunch is a flexible time for Pacelli students. You may eat in our Auditorium with friends or dine outside in our courtyard. You may also choose to eat lunch with your teachers and use the time to receive help in a class to boost your GPA.

BLING OUT YOUR DIPLOMA

Pacelli students have the opportunity to earn two special seals on their high school diplomas. The AP Capstone Diploma program challenges students to take AP Seminar, AP Research, and at least four additional AP courses to earn a special designation on their diploma. Students interested in world studies may also work to get a special Global Competency Seal on their diploma signifying they are fluent in multiple languages. Set yourself apart with a special diploma.

MAKE A DIFFERENCE

All St. Anne-Pacelli students are engaged in service to their church, school, and community. Seniors demonstrate leadership by completing a yearlong senior service project focused on a cause or passion important to them. You might find yourself coaching a soccer camp for needy children or developing a website to connect pets to good homes.

SKIP A YEAR IN COLLEGE

With 8 Dual Enrollment classes and 19 AP classes, students often graduate from St. Anne-Pacelli with multiple college credits. This could allow you to graduate early, pursue a minor or a double major, or participate in an internship without extending your time in college. Entering college with credit hours may also get you preference over other freshmen for housing, parking, classes, and tickets to games.

SPEAK WITHOUT USING WORDS

How can you speak without using words? By learning American Sign Language at St. Anne-Pacelli. It's one of five foreign languages available for students. The other languages are Spanish, French, Italian, and Japanese.

LAND THE LEAD IN THE PLAY

One fine arts class is required for graduation at Pacelli but many students have a talent for drama, music or art. If it's the big stage you dream of, enroll in a drama class, try out for the school play, or join the Literary Team or Thespian Honor Society. Artists can take courses in AP Art History, Visual Arts I & II, AP Studio Arts, or Ceramics. Open Art Studio is available after school for students who aren't in an art class but still want to create. If music is your thing, consider joining the concert band or chorus.

RIDE A ROLLER COASTER

St. Anne-Pacelli students enjoy field trips for various classes, academic competitions, college fairs, awards ceremonies, class retreats, and community events. A favorite is the senior trip to Universal Studios GradBash to celebrate the end of high school. Will you ride the Hulk or hang out with Harry Potter?

SURVIVE THE INSIDE OF A SHARK

As a part of the Marine Biology elective class students dissect sharks in Pacelli's new state-of-the-art science lab. If you really love close up animal encounters, you may want to be part of the research team that works in the rainforests of Panama in the summer. Here at home you'll enjoy hands-on learning in all science courses and throughout your other courses as well.

HIT SNOOZE BECAUSE PLAID IS YOUR COLOR

Whether hitting the snooze for extra sleep or hitting the drive-through for breakfast, you will appreciate the ease of slipping into a uniform. St. Anne-Pacelli uniform options allow for personal style and casual Fridays. You will also be treated to out-of-uniform or themed dress-up days throughout the year.

CELEBRATE! YOU'RE IN.

All Pacelli students use Naviance, an online college and career planning tool. It will help you determine careers that best match your talents, research colleges, build your college resume, find scholarships, and more. You'll also have access to free SAT prep classes, PSAT testing (9th, 10th & 11th grade), on-campus ACT/SAT test taking opportunities, and college representative visits to help you get into your first choice college.
